Engineer in computational biology - INSA de Lyon

21 years old, french, single.

I write code, mostly Python. I have fierce self-learning skills, am confident, motivated, independant and enjoy new challenges!

Education

- 2012 : 6 month international exchange at Facultad of Ingeneria, Montevideo, Uruguay
- 2007-2012 : Bio-computational engineer degree - National Institute of Applied Sciences, Lyon, France
- 2007 : Scientific high school degree with honours, engineer sciences option

Skills

- Programming languages : **Python**, **Cython**, C, bash scripting, Ruby, C#/C++
- Developpement tools : virtualenv, pylint
- Collaborative methods & platforms : **Git/Github**, SVN, Trello
- Web : **Django** framework, Flask micro-framework, HTML/CSS/JS,
- Databases : **MongoDB**, PostgreSQL, MySQL
- Optimization tools & methods : functional profiling, line profiling, Shedskin
- Operating systems : **GNU/Linux**, Mac OS X, Microsoft Windows XP/7
- Documentation tools : \LaTeX , Sphinx

Work experience

- *Current position* : **Home based internship** at Strongsteam. Development of a **data-mining and A.I. cloud-based API** to extract information out of images, video, audio and text files : RESTful API developpement, PyPI packaging, OCR research, voice recognition research.
- *January - February 2012* : Developpement of an alumni database and request page - Python/Django
- *April - July 2011* : Developpement of a statistical analysis webapp - A+A - Lyon
- *February - April 2011* : Computational biology project - Spawning of biological networks using **genetic algorithms**
- *November 2010* : Conference « Chromatin is a major player in regulating the stochasticity of gene expression in higher eukaryotic cells », Integrative Post Genomics 2010 (coauthor)
- *June - August 2010* : internship at the Center of Molecular and Cellular Genetics (CGMC) : « Study and modelling of the stochastic expression of the *mCherry* gene » **High performance Python** involved.

Languages

- French : native
- **English : fluent** (TOEIC : 980/990)
- Spanish : fluent (6 months spent in Uruguay)
- Arabic, Mandarin : begginer

Hobbies and community life

- Python focused technical writer at isbullsh.it
- Community life at INSA de Lyon :
 - in charge of the financing and coordination of the community life
 - Former secretary of the **open-source software association** (GPL)
- Music : guitar (9 years of practice, alone and in a band), bass guitar, singing
